Dear Phillips Roofing,

Thank you very much for the professional and quality service given when replacing the roof of our home recently. From your first visit we felt assured that we had found a trustworthy company, who were dedicated to ensuring that the job was well done and carried out with care, customer focus and understood the meaning of service.

We cannot praise your whole team enough, each and every one worked hard, was courteous and respectful that this was our home not just another work site. The quality of workmanship shone through at all times. I enjoyed the opportunity of climbing up the scaffolding and watching professionals at work, the attention to detail was superb and commitment to the customer was tremendous. Your team are truly professional, work well together and understand this is their shop window to new business and continued success.

Please feel free to recommend potential customers to visit our home and see the quality of workmanship you provide, we are very happy to give references to new clients and support your business in the future. Thank you all once again for a roof which we are extremely pleased with and proud of.

Yours sincerely,

D C & S J Broddle.
